**DIRECTORS' REPORT**

The Directors present their report on the consolidated entity (referred to hereafter as the Group) consisting of Jindalee Resources Limited and the entity it controlled at the end of, or during the year ended 30 June 2011.

**DIRECTORS**

The following persons were directors of Jindalee Resources Limited during the whole of the financial year and up to the date of this report:

Lindsay George Dudfield  
Mark Richard Scott  
Patricia Anne Farr

**PRINCIPAL ACTIVITIES**

The principal activity during the year of Jindalee Resources Limited was mineral exploration. During the year there was no change in the nature of this activity.

**FINANCIAL RESULTS**

The consolidated profit of the Group after providing for income tax for the year ended 30 June 2011 was \$488,219 (2010: profit \$25,979,253)

**DIVIDENDS**

No dividends have been declared since the end of the previous financial year and no dividends have been recommended by the Directors.

**SIGNIFICANT CHANGES IN THE STATE OF AFFAIRS**

During the year there has been no significant change in the state of affairs of the Group.

**REVIEW OF OPERATIONS**

Full details of the Group's exploration activities during the year are included within the Review of Activities section of the Annual Report.

**FINANCIAL POSITION**

The net assets of the Group have fallen by \$1,114,277 from \$14,596,044 at 30 June 2010 to \$13,481,767 at 30 June 2011 principally due to changes in the market value of available for sale financial assets.

The Directors believe the Group is in a strong financial position to continue its exploration endeavours.

**MATTERS SUBSEQUENT TO THE END OF THE FINANCIAL YEAR**

Since 30 June 2011 and up to the date of this report there has been a decline in the market value of the Company's available for sale investment in Energy Metals Limited. At the date the financial statements were approved, the market value (based on closing market bid price of \$0.335) of the investment in Energy Metals Limited was \$4,702,824 indicating a decline of \$1,052,872.

Aside from the material decrease in the value of the investment outlined above, there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely, in the opinion of the Directors, to affect significantly the operations, the results of those operations, or the state of affairs of the Group in future financial years.

**LIKELY DEVELOPMENTS AND EXPECTED RESULTS OF OPERATIONS**

The Directors are not aware of any developments that might have a significant effect on the operations of the Group in subsequent financial years not already disclosed in this report.

Ms Farr was also the Company Secretary of uranium junior Energy Metals Limited from 2005 to 2010. Ms Farr is a graduate member of the Australian Institute of Company Directors and is currently undertaking the Graduate Diploma in Applied Corporate Governance with Chartered Secretaries Australia.

**REMUNERATION REPORT - AUDITED**

The information provided in this remuneration report has been audited as required by section 308(3C) of the *Corporations Act 2001*.

**Remuneration Policy**

The remuneration policy of the Group has been designed to align director objectives with shareholder and business objectives. The board of Jindalee Resources Limited believes the remuneration policy to be appropriate and effective in its ability to attract and retain the best executives and directors to run and manage the Group, as well as create goal congruence between directors, executives and shareholders.

The Board's policy for determining the nature and amount of remuneration for board members of the Group is as follows:

All executives receive consulting fees or a salary, part of which may be taken as superannuation, and from time to time, options. Options issued to directors are subject to approval by Shareholders. The Board reviews executive packages annually by reference to the executive's performance and comparable information from industry sectors and other listed companies in similar industries.

Board members are allocated superannuation guarantee contributions as required by law, and do not receive any other retirement benefits. From time to time, some individuals may choose to sacrifice their salary or consulting fees to increase payments towards superannuation.

All remuneration paid to directors and specified executives is valued at the cost to the Group and expensed. Options are valued using the Black-Scholes methodology.

The Board policy is to remunerate non-executive directors at commercial market rates for comparable companies for their time, commitment and responsibilities. Independent external advice is sought when required. The maximum aggregate amount of fees that can be paid to non-executive directors is subject to approval by shareholders at the Annual General Meeting and is currently set at \$200,000 per annum. Fees for non-executive directors are not linked to the performance of the Group. Non-executive directors' remuneration may also include an incentive portion consisting of options, subject to approval by Shareholders.

**Company performance, shareholder wealth and directors and key executives remuneration**

The policy setting the terms and conditions for the executive directors and specified executives, was developed and approved by the Board and is considered appropriate for the current exploration phase of the Group's development. Emoluments of Directors are set by reference to payments made by other companies of similar size and industry, and by reference to the skills and experience of directors. Fees paid to directors are not linked to the performance of the Group. This policy may change once the exploration phase is complete and the Company is generating revenue. At present the existing remuneration policy is not impacted by the Group's performance including earnings and changes in shareholder wealth (dividends, changes in share price or returns of capital to shareholders).

The following table shows the share price and the market capitalisation of the Group at the end of each of the last four financial years.

	<b>2008</b>	<b>2009</b>	<b>2010</b>	<b>2011</b>
Share Price	\$1.00	\$0.38	\$1.36	\$0.35
Market Capitalisation	\$31.94M	\$12.46M	\$47.3M	\$12.18M
Dividends (cents per share)	-	-	55*	-

\*On 31<sup>st</sup> May 2010 the Group announced a fully franked 55 cent dividend to shareholders in respect of the year ended 30 June 2010. This dividend was paid to shareholders on 22 July 2010.

**Directors and Executives (Key Management Personnel) Emoluments**

The Company's policy for determining the nature and amount of emoluments of key management personnel and senior executives of the Group is that Directors are to be paid consulting fees at commercial rates for professional services performed.

Details of the nature and amount of each element of the emoluments of each director of Jindalee Resources Limited are set out in the following table:

**Service Agreements**

On appointment to the Board, all non-executive directors enter into a service agreement with the Company in the form of a letter of appointment. The letter summarises the Board policies and terms of appointment, including compensation relevant to the office of director. Remuneration and other terms of employment for the Managing Director and other Senior Managers are also formalised in service agreements as summarised below.

**M Scott**

Mr Scott was appointed a non-executive director on 31 July 2000. Mr Scott receives directors' fees of \$70,000 per annum. The appointment is contingent upon satisfactory performance and successful re-election by shareholders of the Company as and when required by the Constitution of the Company and the Corporations Act. Mr Scott is not entitled to termination benefits.

**L G Dudfield**

Mr Dudfield was appointed a director on 22 January 1996 and is Managing Director. Mr Dudfield is remunerated pursuant to the terms and conditions of a consultancy agreement entered into with Mr Dudfield and Jopon Management Pty Ltd trading as Western Geological Services. Unless extended for a further period, the current agreement will expire in June 2013. The agreement may be terminated by either party on the giving of 90 days notice or earlier in the event of a default not remedied within 14 days.

**P A Farr**

Ms Farr was appointed as a director on 29 August 2008. Ms Farr is remunerated pursuant to the terms and conditions of an employment contract. Ms Farr's employment contract may be terminated by either party on the giving of one months notice. Upon termination of the contract for any reason the company will pay leave entitlements due to Ms Farr.

R G Ledger

Mr Ledger is remunerated pursuant to the terms and conditions of a consultancy agreement. Unless extended for a further period, the current agreement will expire in June 2013 and can be terminated by either party on giving of 90 days notice or earlier in the event of a default not remedied within 14 days.

T Peachey

Mr Peachey is employed as Exploration Manager pursuant to the terms and conditions of his employment contract dated 31 March 2008. The contract may be terminated by either party on the giving of one months notice. Upon termination of the contract for any reason the Company will pay entitlements due to the Employee.

**Options granted as part of remuneration**

Options over shares in Jindalee Resources Limited are granted under the Employee Share Option Plan. Participation in the plan and any vesting criteria, is at the Board's discretion and no individual has a contractual right to participate in the plan or to receive any guaranteed benefits. Any options issued to directors of the Company are subject to shareholder approval.

**Share-based compensation**

Details of options over ordinary shares in the Company provided as remuneration to each director of Jindalee Resources Limited and senior managers of the Company are set out below. All options are vested on grant date.

Name	Exercise price	Expiry Date	Value at grant Date	Number of options granted during the year		Number of options vested during the year	
				2011	2010	2011	2010

The fair value of services received in return for share options granted to employees is measured by reference to the fair value of options granted. The estimate of the fair value of the services is measured based on Black-Scholes option valuation methodology. The life of the options and early exercise option are built into the option model.

Further information on the fair value of share options and assumptions is set out in Note 19 to the financial statements.

**Securities Policy**

The Company has implemented a policy on trading in the Company's securities designed to ensure that all directors, senior management and employees of the Company act ethically and do not use confidential inside information for personal gain. The policy states acceptable and unacceptable times for trading in Company securities and outlines the responsibility of directors, senior management and employees to ensure that trading complies with the *Corporations Act 2001*, the Australian Securities Exchange (ASX) Listing Rules and Company Policy. A copy of this policy was lodged with the ASX and is available on the Company's website.

Any transaction conducted by Directors with regards to shares of the Company requires notification to the ASX. Each Director has entered into an agreement to provide any such information with regards to Company dealings directly to the Company Secretary promptly to allow the Company to notify the ASX within the required reporting timeframes.

### Shares provided on exercise of options

All options are vested at grant date. No amounts are unpaid on any shares issued on the exercise of options.

For details on the valuation of the options, including models and assumptions used, please refer to Note 19. There were no alterations to the terms and conditions of options granted as remuneration since their grant date. All options issued are fully vested at grant date.

### End of Remuneration Report

#### SHARES UNDER OPTION

There were 2,850,000 unlisted options granted during the year ended 30 June 2011.

The details of the options on issue by the Company are as follows:

<u>Grant Date</u>	<u>Number</u>	<u>Date vested &amp; exercisable</u>	<u>Expiry Date</u>	<u>Exercise Price</u>	<u>Value per option at grant date</u>
20/06/2011	2,850,000	20/06/2011	30/06/2014	\$0.75	\$0.109

#### *Shares Issued on Exercise of Options*

There were 1,500,000 shares issued on exercise of options during the year and up to the date of this report.

#### DIRECTORS AND OFFICERS INSURANCE

Jindalee Resources Limited paid a premium during year in respect of directors' and officers' liability insurance policy, insuring the directors and officers of the company against a liability incurred whilst acting in the capacity of a director, secretary or executive officer to the extent permitted by the *Corporations Act 2001*. The Directors have not included details of the nature of the liabilities covered or the amount of the premium paid in respect of the policy as such disclosure is prohibited under the terms of the contract of insurance.

**PROCEEDINGS ON BEHALF OF THE COMPANY**

No person has applied to the Court under section 237 of the *Corporations Act 2001* for leave to bring proceedings on behalf of the Company, or to intervene in any proceedings to which the Company is a party, for the purpose of taking responsibility on behalf of the Company for all or part of those proceedings.

No proceedings have been brought or intervened in on behalf of the Company with leave of the Court under section 237 of the *Corporations Act 2001*.

**ENVIRONMENTAL REGULATION**

The Group is subject to significant environmental regulation in respect of its exploration activities. Tenements in Western Australia are granted subject to adherence to environmental conditions with strict controls on clearing, including a prohibition on the use of mechanised equipment or development without the approval of the relevant government agencies, and with rehabilitation required on completion of exploration activities. These regulations are controlled by the Department of Mines and Petroleum.

Jindalee Resources Limited conducts its exploration activities in an environmentally sensitive manner and the Group is not aware of any breach of statutory conditions or obligations.

Greenhouse gas and energy data reporting requirements

The Directors have considered compliance with both the Energy Efficiency Opportunity Act 2006 and the National Greenhouse and Energy Reporting Act 2007 which requires entities to report annual greenhouse gas emissions and energy use. The Directors have assessed that there are no current reporting requirements for the period ended 30 June 2011, however reporting requirements may change in the future.

**NON-AUDIT SERVICES**

The Company from time to time may decide to employ the auditor on assignments additional to their statutory audit duties where the auditor's expertise and experience with the Company is important. Details of the amounts paid or payable to the auditor (BDO) for audit and non-audit services provided during the year are set out below.

The Board of Directors has considered the position and is satisfied that the provision of the non-audit services is compatible with the general standard of independence for auditors imposed by the *Corporations Act 2001*. The Directors are satisfied that the provision of non-audit services by the auditor as set out below did not compromise the auditor independence requirements of the *Corporations Act 2001* for the following reasons:

- the non-audit services have been reviewed by the Board to ensure they do no impact on the impartiality and objectivity of the auditor
- none the services undermine the general principles relating to auditor independence as set out in APES 110 *Code of Ethics for Professional Accountants*

### Corporate Governance Statement For the year ended 30 June 2011

It is the responsibility of the Board of Directors of Jindalee Resources Limited to monitor the business affairs of the Company and to protect the rights and interests of the shareholders. The Board believes that high standards of corporate governance are an essential prerequisite for creating sustainable value for shareholders. This statement summarises the Company's corporate governance policies and practices in place throughout the reporting period ended 30 June 2011. The policies and practices have aimed to ensure the implementation of a strategic business plan and an integrated framework of accountability over the Company's resources, functions and assets.

The Company's most significant governance policies are available on the Company's website [www.jindalee.net](http://www.jindalee.net)

#### Principal 1: Lay solid foundations for management and oversight

The Board is responsible for the overall Corporate Governance of the Company including the strategic direction, establishing goals for management and monitoring the achievement of these goals. Due to the size of the Board, all issues are considered by the full Board which currently consists of three directors. The Board is responsible for corporate strategy, implementation of business plans, allocation of resources, approval of budgets and capital expenditure, and the adherence to Company policies.

The appointment of non-executive directors is formalised in accordance with the requirements of the *Corporations Act 2001* and the Company's constitution.

On appointment to the Board, all non-executive directors enter into a service agreement with the Company in the form of a letter of appointment. The letter summarised the Board policies and terms of appointment, including compensation relevant to the office of director. Remuneration and other terms of employment for the Managing Director and other Executive Directors and Senior Managers are formalised in service agreements which are summarised in the Directors Report.

The Directors of the Company in office at the date of this statement are:

<u>Name</u>	<u>Age</u>	<u>Position</u>	<u>Special Expertise</u>
Mark Richard Scott	64	Non-Executive Director	Finance Industry
Lindsay George Dudfield	54	Managing Director	Resource Industry
Patricia Anne Farr	39	Executive Director / Company Secretary	Company Management

The Board comprises a Non-executive Chairman, an Executive Director and a Managing Director. The Board believes this structure is effective for the current range of duties of the Board to be properly discharged.

The Company's Managing Director has the responsibility for guiding management in effectively carrying out tasks and achieving Company objectives.

The Company's Chairman is responsible for leadership and governance of the board and ensuring its efficient organization and conduct.

The Executive Director/Company Secretary responsibilities include ensuring the Board receive regular financial information and reports, preparation of statutory financial statements, corresponding with corporate regulators the Australian Securities Exchange and Australian Securities & Investments Commission and maintaining details of the Company's banking arrangements and funds on hand. Ms Farr was appointed joint Company Secretary on 1 July 2010.

At every Annual General Meeting one third of the Directors must retire and sit for re-election.

The Board reviews the performance of senior executives against appropriate measures relating to their respective roles and responsibilities. The reviews are done at least annually and more often when deemed necessary. The senior executives were reviewed during the 2011 financial year in accordance with these procedures.

A copy of the statement of matters reserved for the board and senior executives is available on the Company's website.

### **Principle 2: Structure the Board to add value**

The ASX Corporate Governance Council's Principles and Recommendations (ASX Guidelines) recommend that a majority of the Board should be independent directors. The ASX guidelines define independence as not being a member of management and being free from any business or other relationships that could materially interfere with, or could reasonably be perceived to materially interfere with, the exercise of their independent judgement to act in the best interests of Jindalee Resources.

In considering the Corporate Governance Councils definition of independence and recommendation that a majority of directors and the Chair be independent, the Company has not complied with recommendation 2.1 (bearing in mind that in determining independence the Company is required to take into account reasonable perceptions as well as actual facts and circumstances) by virtue of directors substantial shareholdings in the Company or their employment status.

It is considered that the present circumstances of the Company and its current stage of development, that the Board is of a sufficient size and comprises a diverse mix of persons with appropriate qualifications, commitment and experience to govern the Company and that the costs involved in appointing additional non-executive directors in order to comply with the recommendation would outweigh the benefit of making such an appointment. The Board will consider the appointment of additional non-executive directors where required by law, if an outstanding candidate is identified or if it is considered that additional expertise is required in specific areas as the Company develops.

The Board however does meet the recommendation that the Chair does not hold the position of chief executive officer.

The ASX Guidelines recommend listed entities establish a nomination committee. The Company does not have a separately established nomination committee, however responsibilities of the full Board include the duties and responsibilities typically delegated to such a committee. Given the size and the Company's current stage of development, the Board does not believe that any marked efficiencies or enhancements would be achieved by the creation of a separate nomination committee.

When a new director appointment is to be made the remaining board members will seek a candidate that has relevant industry experience, time availability to devote to the position of director and appropriate skills and expertise that will increase or enhance board diversity and effectiveness. Following such an appointment that director will stand for re-election by Shareholders at the next annual general meeting. The only publicly available policy for the nomination and appointment of directors is the corporate governance statement in the annual report.

Due to the nature of the Company's activities and small size of the Company there is currently no internal formal process for performance evaluation of the Board, however, Shareholders are able to assess the performance of the board and individual directors by the way they govern and manage the Company and vote for or against their re-appointment at the annual general meeting.

The skills, experience and expertise relevant to the position held by each director is disclosed in the Directors' Report which forms part of this report.

The Directors may, in fulfilling their duties, obtain independent professional advice at the Company's expense, however prior notification by the Director to the Board is required.

The Board has agreed on the following guidelines for assessing the materiality of matters:

***Materiality – Quantitative***

*Balance sheet items*

Balance sheet items are material if they have a value of more than 10% of pro-forma net asset.

*Profit and loss items*

Profit and loss items are material if they will have an impact on the current year operating result of 10% or more.

***Materiality – Qualitative***

Items are also material if:

- (a) they impact on the reputation of the Company;
- (b) they involve a breach of legislation;
- (c) they are outside the ordinary course of business;
- (d) they could affect the Company's rights to its assets;
- (e) if accumulated they would trigger the quantitative tests;
- (f) they involve a contingent liability that would have a probable effect of 10% or more on balance sheet or profit and loss items; or
- (g) they will have an effect on operations which is likely to result in an increase or decrease in net income or dividend distribution of more than 10%.

***Material Contracts***

Contracts will be considered material if:

- (a) they are outside the ordinary course of business;
- (b) they contain exceptionally onerous provisions in the opinion of the Board;
- (c) they impact on income or distribution in excess of the quantitative tests;
- (d) there is a likelihood that either party will default, and the default may trigger any of the quantitative or qualitative tests;
- (e) they are essential to the activities of the Company and cannot be replaced, or cannot be replaced without an increase in cost of such a quantum, triggering any of the quantitative tests;
- (f) they contain or trigger change of control provisions;
- (g) they are between or for the benefit of related parties; or
- (h) they otherwise trigger the quantitative tests.

Any matter which falls within the above guidelines is a matter which triggers the materiality threshold ("**Materiality Threshold**").

**Principle 3: Promote ethical and responsible decision-making**

The Board is responsible for setting the tone of legal, ethical and moral conduct to ensure that the Company is considered reputable by the industry and other outside entities. This involves considering the impact of the Company's decisions on the industry, colleagues and the general community. The Code of Conduct adopted by the Company requires that all employees abide by the laws, regulations and business practices wherever the Company operates. The Board maintains an approach that preserves the integrity of any laws or regulations under which the Company operates. The Company has also put in place various internal policies which provide internal controls to ensure employees only act within the authority given to them by the Board. This is to ensure that the Board has responsibility for any material transactions and dealings with outside parties, and that any legal, environmental and social consequences of such dealings will be properly considered before any action is taken.

The Company has an Environmental Policy which requires that all employees comply with the environmental regulations in force in the region in which work is undertaken. The Company is committed to dealing fairly and equitably with interested parties relating to environmental issues, such as landholders, governmental agencies and native title claimants.

The Company is committed to maintaining the highest standards of integrity and seeks to ensure that all its activities are undertaken with efficiency, honesty and fairness. The Company also maintains a high level of transparency regarding its actions are consistent with the need to maintain the confidentiality of commercial-in-confidence material and market integrity. The Company has implemented a policy on trading in the Company's securities designed to ensure that all directors, senior managers and employees of the Company act ethically and do not use confidential information for personal gain.

Any transaction conducted by Directors with regards to shares of the Company requires notification to the ASX. Each Director has entered into an agreement to provide any such information with regards to Company dealings directly to the Company Secretary promptly to allow the Company to notify the ASX within the required reporting timeframes.

The Company has not adopted the so called "whistleblower" recommendations as it is considered unnecessary at this stage of the Company's development.

A copy of the Company's Code of Conduct, Environmental and Share Trading policy is available on the Company's website.

The Company acknowledges the importance of diversity within the organisation and recognises the advantages arising from a workforce comprising individuals with diverse backgrounds, skills, age and experience. The benefits of promoting a diverse workforce include providing a broader pool of high quality employees, improving employee retention, accessing different perspectives, ideas and innovation as well as the benefits resulting from utilising all available talent. Accordingly the Company has adopted a diversity policy, a copy of which can be found on the Company's website. In accordance with this policy, the Board provides information pertaining to the proportion of women employees across the organisation:

	Actual	
	Number	Percentage
Number of women employees in the whole organisation	2	33%
Number of women in senior executive positions	1	20%
Number of women on the Board	1	33%

The Company however has not complied with recommendation 3.3 in setting measurable objectives for achieving gender diversity. The Board continues to monitor diversity across the organisation and is satisfied with the current level of gender diversity within the Company as disclosed above. Due to the small size of the Company and its small number of employees, the Board does not consider it appropriate at this time, to formally set measurable objectives for gender diversity.

#### **Principle 4: Safeguard Integrity in Financial Reporting**

The ASX Guidelines recommend listed entities establish an audit committee. During the year ended 30 June 2011 Jindalee Resources Limited did not have a separately established audit committee. The Board considers that due to the Company's size, an audit committee's functions and responsibilities can be adequately and efficiently discharged by the Board as a whole, operating in accordance with the Company's mechanisms designed to ensure independent judgement in decision making. The Board as a whole meets with the Company auditor prior to the final sign-off of the half yearly and final annual accounts.

The Board considers and deals with matters which would ordinarily be attended to by an audit committee including:

- monitoring the Company's performance against strategy;
- approving and monitoring all significant or major business transactions;
- designing and implementing an appropriate organisational structure;
- appointing and monitoring the conduct and performance of management and personnel, and overseeing all remuneration, development and succession;
- approving and monitoring financial reporting and compliance;
- monitoring the principal risks and opportunities of the Company's business;
- ensuring appropriate risk management systems are established and reviewed;
- approving and monitoring procedures for the selection of the external auditor and rotation of external audit partners;
- assessing the performance and independence of the external auditors;
- overseeing control and accountability systems; and
- reviewing and approving corporate governance systems.

The Managing Director is accountable to the Board for management of the Company within authority levels approved by the Board and is subject to the supervision of the Board. The Managing Director and Company Secretary are required to periodically state in writing to the Board that the Company's financial report presents a true and fair view of the Company's financial condition and that results are reported in accordance with relevant accounting standards.

#### *External auditor*

The Company's policy is to appoint external auditors who clearly demonstrate quality and independence. It is the auditor's policy to rotate engagement partners on listed companies at least every five years.

The auditor is required to attend the Annual General Meeting of Shareholders. The Chairman will permit shareholders to ask questions about the conduct of the audit and the preparation and content of the audit report, in accordance with section 250T of the *Corporations Act 2001*.

#### **Principle 5: Make Timely and balanced disclosure**

The Company must comply with the continuous disclosure requirements of the ASX Listing Rules and *Corporations Act 2001*. The Company is required to disclose to the ASX any information which a reasonable person would expect to have a material effect on the price or value of the Company's securities unless certain exemptions from the requirements apply. To ensure it meets its continuous disclosure obligations, the Board has nominated the Managing Director and Company Secretary as responsible for all disclosure matters. Their role is to collate and, where appropriate, disclose price sensitive information.

In the Company's current stage of development, matters of crucial importance arise regularly. The Managing Director will discuss significant issues with Board members who jointly will make a decision on the timely release of factual and balanced information concerning the Company's activities.

Presentations that are made to analysts or investors are posted on the Company's website. If the presentations contain information that has not previously been announced to ASX that could have a material effect on the share price, the presentation is released to the ASX before the presentation is delivered.

A copy of the Company's continuous disclosure policy is available on the Company's website.

---

**Principle 6: Respect the rights of shareholders**

The Board of Jindalee Resources Limited endeavours to ensure that shareholders are informed of all the activities affecting the Company. Information is conveyed to shareholders via the annual report, quarterly reports and other announcements which are delivered to the Australian Securities Exchange and posted on the Company's website (<http://www.jindalee.net>). Shareholders with access to the internet are encouraged to submit their email addresses to receive electronic copies of information distributed by the Company. Hard copies of this information are available on request.

The Board encourages the attendance and participation of shareholders at the Annual General Meeting and specifically convened General Meetings by holding those meetings in a location accessible by a large number of shareholders.

The Board of Jindalee Resources Limited has adopted a policy to promote effective communication with shareholders. A copy of the policy is available from the Company's website.

**Principle 7: Recognise and Manage Risk**

Taking and managing risk are central to business and building shareholder value. The Board is responsible for the identification of significant areas of business risk, implementing procedures to manage such risks and developing policies regarding the establishment and maintenance of appropriate ethical standards to:

- ensure compliance in legal, statutory and ethical matters;
- monitor the business environment, identify potential opportunities & risk areas therein; and
- monitor systems established to ensure prompt and appropriate responses to Stakeholder complaints and/or enquiries.

The Board meets on a regular basis and reviews and monitors the parameters under which such risks will be managed. The Board has established a Risk Management Team ("RMT") which comprises the Managing Director and Company Secretary and any other senior executives the RMT consider appropriate to oversee the daily management of risk and make recommendations to the Board on risk management matters. The RMT is not a committee of the Board and the Board acknowledges that it is ultimately responsible for the implementation of any policies, actions or decisions made by the RMT.

The Managing Director and Company Secretary are required to periodically report to the Board that the Company has a sound system of risk management, that internal compliance and control systems are in place to ensure the implementation of Board policies, and that those systems are operating efficiently and effectively in all material aspects.

The Board also receives a declaration pursuant to s295A of the Corporations Act from the Chief Executive Officer (Managing Director) prior to the approval of financial statements.

A copy of the policy is available from the Company's website.

**Principle 8: Remunerate fairly and responsibly**

The Company does not have a formal remuneration policy and has not established a separate remuneration committee. Due to the early stage of development and small size of the Company a separate remuneration committee was not considered to add any efficiency to the process of determining the levels of remuneration for directors and key executives. The Board considers that it is more appropriate to set aside time at a Board meeting each year to specifically address matters that would ordinarily fall to a remuneration committee such as reviewing remuneration, recruitment, retention and termination procedures and evaluating senior executives remuneration packages and incentives.

In addition, all matters of remuneration will continue to be in accordance with the Corporations Act requirement, especially with regard to related party transactions. That is, none of the directors participate in any discussions or deliberations regarding their own remuneration or related issues.

Remuneration is currently in accordance with the general principles recommended by the ASX, that is, non-executive directors receive a fixed fee for their services and do not receive performance based remuneration. Fees for non-executive directors are not linked to the performance of the Company.

Non-executive directors' remuneration may also include an incentive portion consisting of options to subscribe for shares, subject to approval by Shareholders. The Company has not complied with the ASX Guideline in this regard but considers the nature and quantum of remuneration of its non-executive directors to be appropriate and reasonable for a Company of its size and the granting of options is a useful tool for attracting retaining and motivating quality directors without diminishing the Company's cash resources.

All executives receive either consulting fees or a salary, part of which may be taken as superannuation, and from time to time, options. Options issued to Directors are subject to approval by Shareholders. The Board reviews executive packages annually by reference to the executives performance and comparable information from industry sectors and other listed companies in similar industries.

There are no schemes for retirement benefits for non-executive directors. The Company is required to disclose in its annual report details of Directors' remuneration. A detailed explanation of the basis and quantum of Directors' remuneration is set out in the Directors' Report.

**JINDALEE RESOURCES LIMITED**  
**NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2011**

---

**1. CORPORATION INFORMATION**

These financial statements of Jindalee Resources Limited for the year ended 30 June 2011 were authorised for issue in accordance with a resolution of directors on 5 September 2011.

The financial statements cover the Group of Jindalee Resources Ltd and its controlled entity. Jindalee Resources Ltd is a company limited by shares incorporated in Australia whose shares are publicly traded on the Australian Securities Exchange.

The nature of the operations and principal activities of the Group are described in Note 3.

Unless otherwise stated, policies adopted in the preparation of the financial statements are consistent with those of the previous year.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES**

In order to assist in the understanding of the accounts, the following summary explains the material accounting policies that have been adopted in the preparation of the accounts.

(a) Statement of Compliance

The financial statements are a general purpose financial report which has been prepared in accordance with the requirements of applicable Accounting Standards including Australian Accounting Interpretations and the *Corporations Act 2001*.

The financial statements include the consolidated financial statements of Jindalee Resources Limited and its controlled entity.

The consolidated financial statements of Jindalee Resources Limited also comply with International Financial Reporting Standards (IFRS) as issued by the International Accounting Standards Board.

Separate financial statements of Jindalee Resources Limited, as an individual entity, are no longer presented as the consequence of a change to the Corporations Act 2001. Financial information for Jindalee Resources Limited as an individual entity is included in Note 27.

The financial statements are presented in the Australian currency.

(b) New Accounting Standards and Interpretations

The Group has adopted all new and revised accounting standards and interpretations that are relevant to its operations and effective for reporting periods beginning 1 July 2010. None of the new and revised standards and interpretations adopted during the year had a material impact on the Group.

**New Accounting Standards for Application in Future Periods**

The AASB has issued new and amended Accounting Standards and Interpretations that have mandatory application dates for future reporting periods and which the Group has decided not to early adopt. A discussion of those future requirements and their impact on the Group is as follows:

- AASB 9: Financial Instruments (December 2010) (applicable for annual reporting periods commencing on or after 1 January 2013).

This Standard is applicable retrospectively and includes revised requirements for the classification and measurement of financial instruments, as well as recognition and derecognition requirements for financial instruments. The Group has not yet determined any potential impact on the financial statements.

The key changes made to accounting requirements include:

- simplifying the classifications of financial assets into those carried at amortised cost and those carried at fair value;
- simplifying the requirements for embedded derivatives;
- removing the tainting rules associated with held-to-maturity assets;
- removing the requirements to separate and fair value embedded derivatives for financial assets carried at amortised cost;
- allowing an irrevocable election on initial recognition to present gains and losses on investments in equity instruments that are not held for trading in other comprehensive income. Dividends in respect of these investments that are a return on investment can be recognised in profit or loss and there is no impairment or recycling on disposal of the instrument;
- requiring financial assets to be reclassified where there is a change in an entity's business model as they are initially classified based on: (a) the objective of the entity's business model for managing the financial assets; and (b) the characteristics of the contractual cash flows; and
- requiring an entity that chooses to measure a financial liability at fair value to present the portion of the change in its fair value due to changes in the entity's own credit risk in other comprehensive income, except when that would create an accounting mismatch. If such a mismatch would be created or enlarged, the entity is required to present all changes in fair value (including the effects of changes in the credit risk of the liability) in profit or loss.

- AASB 124: Related Party Disclosures (applicable for annual reporting periods commencing on or after 1 January 2011).

This Standard removes the requirement for government-related entities to disclose details of all transactions with the government and other government-related entities and clarifies the definition of a "related party" to remove inconsistencies and simplify the structure of the Standard. No changes are expected to materially affect the Group.

- AASB 1053: Application of Tiers of Australian Accounting Standards and AASB 2010-2: Amendments to Australian Accounting Standards arising from Reduced Disclosure Requirements [AASB 1, 2, 3, 5, 7, 8, 101, 102, 107, 108, 110, 111, 112, 116, 117, 119, 121, 123, 124, 127, 128, 131, 133, 134, 136, 137, 138, 140, 141, 1050 & 1052 and Interpretations 2, 4, 5, 15, 17, 127, 129 & 1052] (applicable for annual reporting periods commencing on or after 1 July 2013).

AASB 1053 establishes a revised differential financial reporting framework consisting of two tiers of financial reporting requirements for those entities preparing general purpose financial statements:

- Tier 1: Australian Accounting Standards; and
- Tier 2: Australian Accounting Standards – Reduced Disclosure Requirements.

Tier 2 of the framework comprises the recognition, measurement and presentation requirements of Tier 1, but contains significantly fewer disclosure requirements.

**JINDALEE RESOURCES LIMITED**  
**NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2011**

---

The following entities are required to apply Tier 1 reporting requirements (ie full IFRS):

- for-profit private sector entities that have public accountability; and
- the Australian Government and state, territory and local governments.

Since the Group is a for-profit private sector entity that has public accountability, it does not qualify for the reduced disclosure requirements for Tier 2 entities.

AASB 2010–2 makes amendments to Australian Accounting Standards and Interpretations to give effect to the reduced disclosure requirements for Tier 2 entities. It achieves this by specifying the disclosure paragraphs that a Tier 2 entity need not comply with as well as adding specific “RDR” disclosures.

This Standard makes numerous editorial amendments to a range of Australian Accounting Standards and Interpretations, including amendments to reflect changes made to the text of IFRSs by the IASB. However, these editorial amendments have no major impact on the requirements of the respective amended pronouncements.

- AASB 2010–6: Amendments to Australian Accounting Standards – Disclosures on Transfers of Financial Assets [AASB 1 & AASB 7] (applicable for annual reporting periods beginning on or after 1 July 2011).

This Standard adds and amends disclosure requirements about transfers of financial assets, especially those in respect of the nature of the financial assets involved and the risks associated with them.

Accordingly, this Standard makes amendments to AASB 1: First-time Adoption of Australian Accounting Standards, and AASB 7: Financial Instruments: Disclosures, establishing additional disclosure requirements in relation to transfers of financial assets.

This Standard is not expected to impact the Group.

- AASB 2010–7: Amendments to Australian Accounting Standards arising from AASB 9 (December 2010) [AASB 1, 3, 4, 5, 7, 101, 102, 108, 112, 118, 120, 121, 127, 128, 131, 132, 136, 137, 139, 1023 & 1038 and Interpretations 2, 5, 10, 12, 19 & 127] (applies to periods beginning on or after 1 January 2013).

This Standard makes amendments to a range of Australian Accounting Standards and Interpretations as a consequence of the issuance of AASB 9: Financial Instruments in December 2010. Accordingly, these amendments will only apply when the entity adopts AASB 9.

As noted above, the Group has not yet determined any potential impact on the financial statements from adopting AASB 9.

- AASB 2010–8: Amendments to Australian Accounting Standards – Deferred Tax: Recovery of Underlying Assets [AASB 112] (applies to periods beginning on or after 1 January 2012).

This Standard makes amendments to AASB 112: Income Taxes.

The amendments brought in by this Standard introduce a more practical approach for measuring deferred tax liabilities and deferred tax assets when investment property is measured using the fair value model under AASB 140: Investment Property.

Under the current AASB 112, the measurement of deferred tax liabilities and deferred tax assets depends on whether an entity expects to recover an asset by using it or by selling it. The amendments introduce a presumption that an investment property is recovered entirely through sale. This presumption is rebutted if the investment property is held within a business model whose objective is to consume substantially all of the economic benefits embodied in the investment property over time, rather than through sale.

The amendments brought in by this Standard also incorporate Interpretation 121 into AASB 112.

The amendments are not expected to impact the Group.

- AASB 2010–9: Amendments to Australian Accounting Standards – Severe Hyperinflation and Removal of Fixed Dates for First-time Adopters [AASB 1] (applies to periods beginning on or after 1 July 2011).

This Standard makes amendments to AASB 1: First-time Adoption of Australian Accounting Standards.

The amendments brought in by this Standard provide relief for first-time adopters of Australian Accounting Standards from having to reconstruct transactions that occurred before their date of transition to Australian Accounting Standards.

Furthermore, the amendments brought in by this Standard also provide guidance for entities emerging from severe hyperinflation either to resume presenting Australian-Accounting-Standards financial statements or to present Australian-Accounting-Standards financial statements for the first time.

This Standard is not expected to impact the Group.

- AASB 2010–10: Further Amendments to Australian Accounting Standards – Removal of Fixed Dates for First-time Adopters [AASB 2009–11 & AASB 2010–7] (applies to periods beginning on or after 1 January 2013).

This Standard makes amendments to AASB 2009–11: Amendments to Australian Accounting Standards arising from AASB 9, and AASB 2010–7: Amendments to Australian Accounting Standards arising from AASB 9 (December 2010).

The amendments brought in by this Standard ultimately affect AASB 1: First-time Adoption of Australian Accounting Standards and provide relief for first-time adopters from having to reconstruct transactions that occurred before their transition date.

[The amendments to AASB 2009–11 will only affect early adopters of AASB 2009–11 (and AASB 9: Financial Instruments that was issued in December 2009) as it has been superseded by AASB 2010–7.]

This Standard is not expected to impact the Group.

- AASB 1054 Australian Additional Disclosures - AASB 1054 sets out the Australian-specific disclosures for entities that have adopted Australian Accounting Standards. This Standard contains disclosure requirements that are additional to IFRSs in areas such as compliance with Australian Accounting Standards, the nature of financial statements (general purpose or special purpose), audit fees, imputation (franking) credits and the reconciliation of net operating cash flow to profit (loss). Applies to annual reporting periods beginning on or after 1 July 2011.

This standard is not expected to impact the Group.

- IFRS 10 Consolidated Financial Statements - Requires a parent to present consolidated financial statements as those of a single economic entity, replacing the requirements previously contained in IAS 27 *Consolidated and Separate Financial Statements* and SIC-12 *Consolidation - Special Purpose Entities*.

The Standard identifies the principles of control, determines how to identify whether an investor controls an investee and therefore must consolidate the investee, and sets out the principles for the preparation of consolidated financial statements.

The Standard introduces a single consolidation model for all entities based on control, irrespective of the nature of the investee (i.e. whether an entity is controlled through voting rights of investors or through other contractual arrangements as is common in 'special purpose entities'). Under IFRS 10, control is based on whether an investor has:

- \* Power over the investee
- \* Exposure, or rights, to variable returns from its involvement with the investee, and
- \* The ability to use its power over the investee to affect the amount of the returns.

Applicable to annual reporting periods beginning on or after 1 January 2013.

This standard is not expected to impact the Group.

- **IFRS 13 *Fair Value Measurement***

Replaces the guidance on fair value measurement in existing IFRS accounting literature with a single standard.

The IFRS is the result of joint efforts by the IASB and FASB to develop a converged fair value framework. The IFRS defines fair value, provides guidance on how to determine fair value and requires disclosures about fair value measurements. However, IFRS 13 does not change the requirements regarding which items should be measured or disclosed at fair value.

**JINDALEE RESOURCES LIMITED**  
**NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2011**

---

IFRS 13 applies when another IFRS requires or permits fair value measurements or disclosures about fair value measurements (and measurements, such as fair value less costs to sell, based on fair value or disclosures about those measurements). With some exceptions, the standard requires entities to classify these measurements into a 'fair value hierarchy' based on the nature of the inputs:

- **Level 1** - quoted prices in active markets for identical assets or liabilities that the entity can access at the measurement date
- **Level 2** - inputs other than quoted market prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- **Level 3** - unobservable inputs for the asset or liability

Entities are required to make various disclosures depending upon the nature of the fair value measurement (e.g. whether it is recognised in the financial statements or merely disclosed) and the level in which it is classified.

Applicable to annual reporting periods beginning on or after 1 January 2013.

This standard is not expected to impact the Group.

(c) **Basis of Preparation/Accounting.**

The financial statements have been prepared on an accruals basis and is based on historical costs and does not take into account changing money values or, except where stated, current valuations of non-current assets. Cost is based on the fair values of the consideration given in exchange for assets.

In applying IFRS, management is required to make judgements, estimates and assumptions that affect the application of accounting policies and reported amounts of assets and liabilities, income and expenses. The estimates and associated assumptions are based on historical experience and various other factors that are believed to be reasonable under the circumstances, the results of which form the basis of making judgements about carrying values of assets and liabilities that are not readily available from other sources. Actual results may differ from these estimates.

The estimates and underlying assumptions are reviewed on an ongoing basis. Revisions to accounting estimates are recognised in the period in which the estimate is revised if the revision affects only that period, or in the period of the revision and future periods if the revision affects both current and future periods.

Accounting policies are selected and applied in a manner which ensures that the resulting financial information satisfies the concepts of relevance and reliability, thereby ensuring that the substance of the underlying transactions or other events is reported. These accounting policies have been consistently applied throughout the period.

The significant accounting policies set out below have been applied in the preparation and presentation of the financial statements for the year ended 30 June 2011 and the comparative information.

(d) **Principles of Consolidation**

The consolidated financial statements incorporate the assets and liabilities of the subsidiary of Jindalee Resources Limited ("company" or "parent entity") as at 30 June 2011 and the results of all subsidiaries for the year then ended. Jindalee Resources Limited and its subsidiary together are referred to in the financial statements as the group or consolidated entity.

Subsidiaries are all entities (including special purpose entities) over which the group has the power to govern the financial and operating policies, generally accompanying a shareholding of more than one-half of the voting rights. The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the group controls another entity.

Subsidiaries are fully consolidated from the date on which control is transferred to the group. They are de-consolidated from the date that control ceases.

The acquisition method of accounting is used to account for business combinations by the group.

**JINDALEE RESOURCES LIMITED**  
**NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2011**

---

Intercompany transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of the impairment of the asset transferred. Accounting policies of subsidiaries are changed where necessary to ensure consistency with the policies adopted by the group.

Non-controlling interests in the results and equity of subsidiaries are shown separately in the statement of comprehensive income, statement of changes in equity and statement of financial position respectively.

Investments in subsidiaries are accounted for at cost in the parent entity information disclosures of Jindalee Resources Limited.

*Changes in ownership interests*

The group treats transactions with non-controlling interests that do not result in a loss of control as transactions with equity owners of the group. A change in ownership interest results in an adjustment between the carrying amounts of the controlling and non-controlling interests to reflect their relative interests in the subsidiary. Any difference between the amount of the adjustment to non-controlling interests and any consideration paid or received is recognised in a separate reserve within equity attributable to owners of Jindalee Resources Limited.

When the group ceases to have control, joint control or significant influence, any retained interest in the entity is remeasured to its fair value with the change in carrying amount recognised in profit or loss. The fair value is the initial carrying amount for the purposes of subsequently accounting for the retained interest as an associate, jointly controlled entity or financial asset. In addition, any amounts previously recognised in other comprehensive income in respect of that entity are accounted for as if the group had directly disposed of the related assets or liabilities. This may mean that the amounts previously recognised in other comprehensive income are reclassified to profit or loss.

If the ownership interest in a jointly-controlled entity or an associate is reduced but joint control or significant influence is retained, only a proportionate share of the amounts previously recognised in other comprehensive income are reclassified to profit or loss where appropriate.

(e) Cash and Cash Equivalents

For the purposes of the statement of cash flows, cash and cash equivalents includes cash on hand, and deposits repayable on demand with a financial institution. The cash and cash equivalents balance primarily consists of funds on term deposit with original maturity at time of purchase of three months or less that are readily convertible to known amounts of cash and which are subject to minimal risk of changes in value.

(f) Trade and Other Receivables

Receivables are initially recognised at fair value and subsequently measured at amortised cost, less provision for doubtful debts. Current receivables for GST are due for settlement within 30 days and other current receivables within 12 months. Cash on deposit in respect of environmental bonds is not due for settlement until rights of tenure are forfeited or performance obligations are met.

Collectability of trade receivables is reviewed on an ongoing basis. Debts which are known to be uncollectible are written off by reducing the carrying amount directly. An allowance account (provision for doubtful debts) is used when there is objective evidence that the Group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganization, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The amount of the impairment allowance is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. Cash flows relating to short-term receivables are not discounted if the effect of discounting is immaterial.

The amount of the impairment loss is recognized in the statement of comprehensive income within other expenses. When a trade receivable for which an impairment allowance had been recognized becomes uncollectible in a subsequent period, it is

**JINDALEE RESOURCES LIMITED**  
**NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2011**

---

written off against the allowance account. Subsequent recoveries of amounts previously written off are credited against other expenses in the statement of comprehensive income.

(g) Revenue

Interest revenue is recognised on a proportional basis taking into account the interest rates applicable to the financial assets.

All revenue is stated net of the amount of goods and services tax.

Revenue in relation to joint venture agreements is recognised over the period the services are rendered. Revenue from the sale of investments is recorded when all risks and rewards relating to the assets are posted to the third party.

(h) Property, Plant and Equipment

Plant and equipment is stated at cost less accumulated depreciation and any impairment in value.

Depreciation is calculated using the diminishing value and prime cost methods and is brought to account over the estimated economic lives of all property, plant and equipment. The rates used are based on the useful life of the assets and range from 10% to 40%.

Depreciation methods, useful lives and residual values are reassessed at each reporting date.

(i) Impairment of Assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when annual impairment testing for an asset is required, the Company makes an estimate of the asset's recoverable amount. An asset's recoverable amount is the higher of its fair value less costs to sell and its value in use and is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets and the asset's values in use cannot be estimated to be close to its fair value. In such cases the asset is tested for impairment as part of the cash generating unit to which it belongs. When the carrying amount of an asset or cash-generating unit exceeds its recoverable amount, the asset or cash-generating unit is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Impairment losses relating to continuing operations are recognised in those expense categories consistent with the function of the impaired asset unless the asset is carried at revalued amount (in which case the impairment loss is treated as a revaluation decrease).

As assessment is also made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, the recoverable amount is estimated. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case the carrying amount of the asset is increased to its recoverable amount. That increased amount cannot exceed the carrying amount that would have been determined, net of depreciation, had the impairment loss been recognised for the asset in prior years. Such reversal is recognised in profit or loss unless the asset is carried at the revalued amount, in which case the reversal is treated as a revaluation increase. After such a reversal the depreciation charge is adjusted in future periods to allocate the asset's revised carrying amount, less any residual value, on a systematic basis over its remaining useful life.

(j) Exploration and Evaluation Expenditure

The Group's policy with respect to exploration and evaluation expenditure is to use the area of interest method. Under this method exploration and evaluation expenditure is carried forward on the following basis:

- i) Each area of interest is considered separately when deciding whether, and to what extent, to carry forward or write off exploration and evaluation costs.

**JINDALEE RESOURCES LIMITED**  
**NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2011**

---

- ii) Exploration and evaluation expenditure related to an area of interest is carried forward provided that rights to tenure of the area of interest are current and that one of the following conditions is met:
- such evaluation costs are expected to be recouped through successful development and exploitation of the area of interest or alternatively, by its sale; or
  - exploration and/or evaluation activities in the area of interest have not yet reached a stage which permits a reasonable assessment of the existence or otherwise of economically recoverable reserves and active and significant operations in relation to the area are continuing.

Exploration and evaluation costs accumulated in respect of each particular area of interest include only net direct expenditure.

(k) Trade and Other Payables

Trade payables and other payables are carried at cost and represent liabilities for goods and services provided to the Group prior to the end of the financial year that are unpaid and arise when the group becomes obliged to make future payments in respect of the purchase of these goods and services. The amounts are unsecured and usually paid within 30 days of recognition.

(l) Employee Entitlements

The Group's liability for employee entitlements arising from services rendered by employees to reporting date are recognised in other payables. Employee entitlements expected to be settled within one year together with entitlements arising from wages and salaries, and annual leave which will be settled within one year, have been measured at their nominal amount and include related on-costs.

The liability for long service leave is recognised in the provision for employee benefits and measured as the present value of expected future payments to be made in respect of services provided by employees up to the reporting date using the projected unit credit method. Consideration is given to the expected future wage and salary levels, experience of employee departures and periods of service. Expected future payments are discounted using market yields at the reporting date on national government bonds with terms to maturity and currency that match, as closely as possible, the estimated future cash outflows.

(m) Share Based Payment Transactions

*Share based payments*

Under AASB 2 Share Based Payments, the Group must recognise the fair value of options granted to directors, employees and consultants as remuneration as an expense on a pro-rata basis over the vesting period in the statement of comprehensive income with a corresponding adjustment to equity.

The Group provides benefits to employees (including directors) of the Group in the form of share based payment transactions, whereby employees render services in exchange for shares or rights over shares ("equity-settled transactions"). The cost of these equity-settled transactions with employees (including directors) is measured by reference to fair value at the date they are granted. The fair value is determined using a black-scholes model.

(n) Earnings Per Share

(i) Basic Earnings Per Share

Basic earnings per share is determined by dividing the operating loss attributable to the equity holder of the Group after income tax by the weighted average number of ordinary shares outstanding during the financial period.

**JINDALEE RESOURCES LIMITED**  
**NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2011**

---

(ii) Diluted Earnings Per Share

Diluted earnings per share adjusts the figures used in determination of basic earnings per share by taking into account amounts unpaid on ordinary shares and any reduction in earnings per share that will arise from the exercise of options outstanding during the period.

(o) Contributed Equity

Issued and paid up capital is recognised at the fair value of the consideration received by the Group. Any transaction costs arising on the issue of ordinary shares are recognised directly in equity as a reduction of the share proceeds received.

(p) Income Tax and Other Taxes

Current tax assets and liabilities for the current and prior periods are measured at the amount expected to be recovered from or paid to the taxation authorities. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted by the reporting date.

Deferred income tax is provided on all temporary differences at the statement of financial position date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred income tax liabilities are recognised for all taxable temporary differences except:

- When the deferred income tax liability arises from the initial recognition of goodwill or of an asset or liability in a transaction that is not a business combination and that, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- When the taxable temporary difference is associated with investments in subsidiaries, associates or interests in joint ventures, and the timing of the reversal of the temporary difference can be controlled and it is probable that the temporary difference will not reverse in the foreseeable future.

Deferred income tax assets are recognised for all deductible temporary differences, carry-forward of unused tax assets and unused tax losses, to the extent that it is probable that taxable profit will be available against which the deductible temporary differences and the carry-forward of unused tax credits and unused tax losses can be utilised, except:

- When the deferred income tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss; or
- When the deductible temporary difference is associated with investments in subsidiaries, associates or interest in joint ventures, in which case a deferred tax asset is only recognised to the extent that it is probable that the temporary difference will reverse in the foreseeable future and taxable profit will be available against which the temporary difference can be utilised.

The carrying amount of deferred income tax assets is reviewed at each statement of financial position date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred income tax asset to be utilised.

Unrecognised deferred income tax assets are reassessed at each statement of financial position date and are recognised to the extent that it has become probable that future taxable profit will allow the deferred tax asset to be recovered. Income taxes relating to items recognised directly in equity are recognised in equity and not in profit or loss.

Deferred tax assets and deferred tax liabilities are offset only if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred tax assets and liabilities relate to the same taxable entity and the same taxation authority.

**JINDALEE RESOURCES LIMITED**  
**NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2011**

---

*Other taxes*

Revenues, expenses and assets are recognised net of the amount of GST except:

- where the GST incurred on a purchase of goods and services is not recoverable from the taxation authority, in which case the GST is recognised as part of the cost of acquisition of the asset or as part of the expense item as applicable; and
- receivables and payables are stated with the amount of GST included.

The net amount of GST recoverable from, or payable to, the taxation authority is included as part of receivables or payables in the statement of financial position.

Cash flows are included in the statement of cash flows on a gross basis and the GST component of cash flow arising from investing and financing activities, which is recoverable from, or payable to, the taxation authority are classified as operating cash flows.

Commitments and contingencies are disclosed net of the amount of GST recoverable from, or payable to, the taxation authority.

(q) Critical Accounting Estimates and Judgements

Estimates and judgements are continually evaluated and are based on historical experience and other factors, including expectations of future events that may have a financial impact on the Group and that are believed to be reasonable under the circumstances.

*Accounting for capitalised exploration and evaluation expenditure*

The Group's accounting policy is stated at 1(j). There is some subjectivity involved in the carrying forward as capitalised or writing off to the statement of comprehensive income exploration and evaluation expenditure, however management give due consideration to areas of interest on a regular basis and are confident that decisions to either write off or carry forward such expenditure fairly reflect the prevailing situation.

(r) Investment and other financial assets

*Financial Instruments*

The Group has exposure to interest rate risk which is the risk that the Group's financial position will be adversely affected by movements in interest rates. Interest rate risk on cash and short term deposits is not considered to be a material risk due to the short term nature of these financial instruments.

The Group has no monetary foreign currency assets or liabilities.

*Loans and receivables*

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for those with maturities greater than 12 months after the reporting date which are classified as non-current assets.

*Available for sale financial assets*

Available-for-sale financial assets, comprising principally marketable equity securities, are non-derivatives that are either designated in this category or not classified in any of the other categories. They are included in non-current assets unless management intends to dispose of the investment within 12 months of the reporting date. Investments are designated as available-for-sale if they do not have fixed maturities and fixed or determinable payments and management intends to hold them for the medium to long term.

**JINDALEE RESOURCES LIMITED**  
**NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2011**

---

*Recognition and derecognition*

Regular purchases and sales of financial assets are recognised on trade-date – the date on which the Group commits to purchase or sell the asset. Investments are initially recognised at fair value plus transaction costs for all financial assets not carried at fair value through profit or loss. Financial assets carried at fair value through profit and loss are initially recognised at fair value and transaction costs are expensed in the statement of comprehensive income. Financial assets are derecognised when the rights to receive cash flows from the financial assets have expired or have been transferred and the Group has transferred substantially all the risks and rewards of ownership.

When securities classified as available-for-sale are sold, the accumulated fair value adjustments recognised in equity are included in the statement of comprehensive income as gains and losses from investment securities.

*Subsequent measurement*

Loans and receivables and held-to-maturity investments are carried at amortised cost using the effective interest method.

Available-for-sale financial assets are subsequently carried at fair value.

Details on how the fair value of financial instruments is determined is disclosed in Note 20.

*Impairment*

The Group assesses at each reporting date whether there is objective evidence that a financial asset or group of financial assets is impaired. In the case of equity securities classified as available-for-sale, a significant or prolonged decline in the fair value of a security below its cost is considered as an indicator that the securities are impaired. If any such evidence exists for available-for-sale financial assets, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that financial asset previously recognised in profit or loss – is removed from equity and recognised in the statement of comprehensive income. Impairment losses recognised in the statement of comprehensive income on equity instruments classified as available-for-sale are recognised in equity.

(s) Provisions

Provisions are measured at the present value of managements best estimate of the expenditure required to settle the present obligation at the reporting date. The discount rate used to determine the present value reflects current market assessments of the time value of money and the risks specific to the liability.

(t) Business Combinations

The acquisition method of accounting is used to account for all business combinations, including business combinations involving entities or businesses under common control, regardless of whether equity instruments or other assets are acquired. The consideration transferred for the acquisition of a subsidiary comprises the fair value of the assets transferred, the liabilities incurred and the equity interests issued by the group. The consideration transferred also includes the fair value of any contingent consideration arrangement and the fair value of any pre-existing equity interest in the subsidiary. Acquisition costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are, with limited exceptions, measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net identifiable assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the group's share of the net identifiable assets acquired is recorded as goodwill. If those amounts are less than the fair value of the net identifiable assets of the subsidiary acquired and the measurement of all amounts has been reviewed, the difference is recognised directly in profit or loss as a bargain purchase.

Where settlement of any part of cash consideration is deferred, the amounts payable in the future are discounted to their present value as at the date of exchange. The discount rate used is the entity's incremental borrowing rate, being the rate at which a similar borrowing could be obtained from an independent financier under comparable terms and conditions.

**JINDALEE RESOURCES LIMITED**  
**NOTES TO AND FORMING PART OF THE CONSOLIDATED FINANCIAL STATEMENTS**  
**FOR THE YEAR ENDED 30 JUNE 2011**

---

Contingent consideration is classified either as equity or a financial liability. Amounts classified as a financial liability are subsequently remeasured to fair value with changes in fair value recognised in profit or loss.

(u) Dividends

Provision is made for the amount of any dividend declared, being appropriately authorised and no longer at the discretion of the entity, on or before the end of the reporting period but not distributed at the end of the reporting period.

**3. SEGMENT INFORMATION**

Management has determined that the Group has one reportable segment, being mineral exploration in Australia. Prior to the loss of control of the group's former subsidiary during the previous financial year, the Group managed the Company and its subsidiary, Energy Metals Limited, separately hence it had two reportable segments. As the Group is focused on mineral exploration, the Board periodically monitors the Group based on actual versus budgeted exploration expenditure incurred on the group as a whole. This internal reporting framework is most relevant to assist the Board with making decisions regarding the Group and its ongoing exploration programmes and activities, while also taking into consideration the results of exploration work that has been performed to date.

At 30 June 2009 the Group had control of Energy Metals Limited due to its 39.96% voting power and the significant shareholdings in Energy Metals held by group directors and accounted for the investment as a subsidiary. On 15 December 2009 the Group disposed of a 27.97% interest to a third party for proceeds of \$33,411,110. The carrying value of the investment disposed was \$643,492 and the fair value of the remaining Energy Metals investment after the transaction was \$12,143,114. The transaction has resulted in the deconsolidation of the Energy Metals Group from Jindalee Resources Limited and all reserves and non-controlling interest have been removed from the statement of financial position. The Group has retained the remaining 11.99% interest, and from the date of disposing of the 27.97% interest, recognises the investment as an available-for-sale financial asset (Note 12).

Employee Share Option Plan

Jindalee Resources Limited Employee Share Option Plan (“ESOP”) was established to encourage all eligible directors, executive officers and employees who have been continuously employed by the Group to have a greater involvement in the achievement of the Group’s objectives and to provide an incentive to strive to that end by participating in the future growth and prosperity of the Group through share ownership.

The ESOP allows the Group to issue free options to eligible persons. The options can be granted free of charge and are exercisable at a fixed price in accordance with the rules of the ESOP. All options on issue are fully vested at grant date.

Set out below are summaries of options granted under the plan:

Fair Value of Share Options and Assumptions

The fair value of services received in return for share options granted to directors is measured by reference to the fair value of options granted. The estimate of the fair value of the services is measured based on a Black-Scholes option valuation methodology. This life of the options and early exercise option are built into the option model.

The assumptions used for the options valuation are as follows:

Exercise Price	\$0.45	Exercise Price	\$0.75
Expected Life	4.75 years	Expected Life	3 years
Share Price at Time of Issue	\$1.09	Share Price at Time of Issue	\$0.37

**20. FINANCIAL AND CAPITAL RISK MANAGEMENT**

**(a) Capital Risk Management**

The Group manages its capital to ensure that it will be able to continue as a going concern.

The capital structure of the Group consists of cash and cash equivalents (Note 10) and equity attributable to equity holders of the Group, comprising issued capital, reserves and retained earnings (accumulated losses) as disclosed in Notes 16, 17, 18 and 19 respectively.

**(b) Significant Accounting Policies**

Details of the significant accounting policies and methods adopted, including the criteria for recognition, the basis of measurement and the basis on which income and expenses are recognised, in respect of each class of financial asset, financial liability and equity instrument are disclosed in Note 2 of the financial statements.

**20. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)**

**(e) Interest Rate Risk Exposure**

The Group's exposure to interest rate risk arises from assets bearing variable interest rates. The weighted average interest rate on cash holdings was 5.00% at 30 June 2011. All other financial assets and liabilities are non interest bearing. The net fair value of the Group's financial assets and liabilities approximates their carrying value.

The Group invests its surplus funds on deposit with Australian banking financial institutions, namely the National Australia Bank, ANZ Bank and Adelaide Bank. For banks and financial institutions, only independently rated parties with a minimum rating of A2 are accepted.

The table below summarises the impact of an increase/decrease in interest rates received on cash deposits held at year end on the Group's post-tax profit for the year and on equity. The analysis is based on the assumption that rates increased/decreased proportionally by 10% with all other variables held constant.

Decrease of -10%	(67,716)	(332,767)

**(f) Price Risk**

The Group is exposed to equity securities price risk. This arises from investments held by the Group and classified on the statement of financial position as available for sale. The Group is not exposed to commodity price risk.

To manage its price risk arising from investments in equity securities, the Group diversifies its portfolio.

The table below summarises the impact of an increase/decrease in prices of securities held at year end on the Group's post-tax profit for the year and on equity. The analysis is based on the assumption that the prices of all securities increased/decreased by 10% with all other variables held constant.

**20. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)**

**(g) Liquidity Risk**

The liquidity position of the Group is managed to ensure sufficient liquid funds are available to meet our financial commitments in a timely and cost-effective manner. The Board reviews the Group's liquidity position on a regular basis including cash flow statements to determine the forecast liquidity position and maintain appropriate liquidity levels. Note 15 details the Group's current obligations.

There are no unused borrowing facilities from any financial institution.

**(h) Fair Values**

The carrying amounts and estimated fair values of financial assets and financial liabilities are as follows:

<b>Consolidated</b>	<b>Consolidated</b>	
	<b>2011</b>	<b>2010</b>
	<b>\$</b>	<b>\$</b>
<b>Financial Assets</b>		
Cash and cash equivalents	8,089,708	33,276,710

Trade and other payables	409,502	27,555,729
<b>Total Financial Liabilities</b>	<b>409,502</b>	<b>27,555,729</b>

The methods and assumptions used to estimate the fair value of financial instruments are outlined below:

***Cash***

The carrying amount is fair value due to the liquid nature of these assets.

***Receivables/payables***

Due to the short term nature of these financial rights and obligations, their carrying amounts are estimated to represent their fair values.

***Available for sale financial assets***

The current bid price as at 30 June 2011 is used to determine the carrying value of the available for sale financial assets and any movement is taken to the reserve. An impairment loss of available for sale financial assets is taken to the statement of comprehensive income.

The fair value of financial assets and financial liabilities must be estimated for recognition and measurement or for disclosure purposes.

**20. FINANCIAL AND CAPITAL RISK MANAGEMENT (continued)**

**(i) Capital**

In managing its capital, the Group's primary objective is to ensure its continued ability to provide a consistent return for its equity shareholders. In order to achieve this object, the Group seeks to maintain a capital structure that balances risks and returns at an acceptable level and also to maintain a sufficient funding base to enable the Group to meet its working capital and strategic investment needs. In making decisions to adjust its capital structure to achieve these aims, either through new share issues, or sourcing of debt, the Group considers not only its short-term position but also its long-term operational and strategic objectives.

There have been no significant changes to the Group's capital management objectives, policies and processes in the year nor has there been any change in what the Group considers to be its capital.

**21. CONTINGENCIES**

**Contingent Liabilities**

*Claims of Native Title*

To date the Group has been notified by the Native Title Tribunal of native title claims which cover some of the Group's licence holdings. Until further information arises in relation to the claims and its likelihood of success, the Group is unable to assess the likely effect, if any, of the claims.

*Performance Bonds and Security Documents*

In support of titles granted to or operated by the Group, various securities have been submitted to the Department of Mines & Petroleum. These consist of unconditional performance bonds, securities or Form 32 security documents with a total potential liability of \$30,000.

**22. COMMITMENTS**

## INDEPENDENT AUDITOR'S REPORT TO THE MEMBERS OF JINDALEE RESOURCES LIMITED

### Report on the Financial Report

We have audited the accompanying financial report of Jindalee Resources Limited, which comprises the consolidated statement of financial position as at 30 June 2011, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated statement of cash flows for the year then ended, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration of the consolidated entity comprising the company and the entity it controlled at the year's end or from time to time during the financial year.

### Directors' Responsibility for the Financial Report

The directors of the company are responsible for the preparation of the financial report that gives a true and fair view in accordance with Australian Accounting Standards and the *Corporations Act 2001* and for such internal control as the directors determine is necessary to enable the preparation of the financial report that is free from material misstatement, whether due to fraud or error. In Note 2, the directors also state, in accordance with Accounting Standard AASB 101 *Presentation of Financial Statements*, that the financial statements comply with *International Financial Reporting Standards*.

### Auditor's Responsibility

Our responsibility is to express an opinion on the financial report based on our audit. We conducted our audit in accordance with Australian Auditing Standards. Those standards require that we comply with relevant ethical requirements relating to audit engagements and plan and perform the audit to obtain reasonable assurance about whether the financial report is free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial report. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial report, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation of the financial report that gives a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Independence

In conducting our audit, we have complied with the independence requirements of the *Corporations Act 2001*. We confirm that the independence declaration required by the *Corporations Act 2001*, which has been given to the directors of Jindalee Resources Limited, would be in the same terms if given to the directors as at the time of this auditor's report.

## Opinion

In our opinion:

- (a) the financial report of Jindalee Resources Limited is in accordance with the *Corporations Act 2001*, including:
  - (i) giving a true and fair view of the consolidated entity's financial position as at 30 June 2011 and of its performance for the year ended on that date; and
  - (ii) complying with Australian Accounting Standards and the *Corporations Regulations 2001*; and
- (b) the financial report also complies with *International Financial Reporting Standards* as disclosed in Note 2.

## Report on the Remuneration Report

We have audited the Remuneration Report included in the directors' report for the year ended 30 June 2011. The directors of the company are responsible for the preparation and presentation of the Remuneration Report in accordance with section 300A of the *Corporations Act 2001*. Our responsibility is to express an opinion on the Remuneration Report, based on our audit conducted in accordance with Australian Auditing Standards.

## Opinion

In our opinion, the Remuneration Report of Jindalee Resources Limited for the year ended 30 June 2011 complies with section 300A of the *Corporations Act 2001*.
